

Great Basin Coordinating Group Conference Call Notes

Date: 07/20/2017 **Time:** 0900 Mountain / 0800 Pacific

Facilitator: Dennis Terry

Agenda Items:

Predictive Services Update:

Moisture will increase northward again into central and northern Utah and eastern/southern Nevada, keeping thunderstorm and rain chances high again today (Thursday). Most storms will be wet.

The wind threat shifts north on Thursday, with gusty winds expected across the central Idaho mountains and across portions of south central and southeastern Idaho. RH is forecast to reach critical levels across central and southeastern Idaho by Thursday afternoon.

Moisture will continue to surge northward Thursday/Friday into parts of southeast ID/WY. Lightning will return to the northern half of Nevada by this weekend and into ID by early next week. This lightning looks to be a mix of wet/dry and we will continue to monitor for lightning coverage, timing and moisture.

GB Coordinating Center Update:

- Moderate IA
- 33 New fires for 629 acres
- Large Fire Growth: 9777
- Teams: 2 T1, 1 T2 NW #8 Johnson pre-positioned in Reno
